Smashing Stereotypes

Why We Should All Be #TeamEquality

Hey everyone! This month, we're celebrating "Girl Power" and guess what? It's not just about girls! It's about everyone working together to break down silly ideas and stereotypes that limit all of us.

Think about it: have you ever heard someone say "boys are good at math" or "girls are too emotional"? These are just stereotypes - labels people put on others based on gender, and they're not true!

Here's the thing: everyone is different, regardless of their gender. Some girls might love math and science, while others might be amazing artists or athletes. And guess what? Boys can be creative writers and fantastic dancers too!

So, how can we break these stereotypes? Here are some ideas:

Challenge yourself and others: If someone tells you "you can't do that because you're a boy/girl," politely explain why they're wrong! Everyone should be able to try new things and explore their interests.

Celebrate diversity: When you see someone breaking a stereotype, cheer them on! Let's celebrate each other's talents and abilities, not judge them based on outdated ideas.

Spread the word: Talk to your friends and family about why gender stereotypes are harmful. The more we talk about it, the sooner we can break down these barriers and create a more equal world for everyone!

Remember, being #TeamEquality isn't about boys against girls - it's about standing together and recognising that everyone has amazing potential, no matter their gender. So, let's smash those stereotypes and build a world where everyone can be their true selves!

Editor's Note:

Happy Women's Day to everybody out there! This edition is not only for and about girls, it's about gender equality and proves that anybody can do something big and achieve their dreams. Get inspired by people like Amelia Earhart, you can also soar high as she did (literally!) Sharpen your mind with riddles and unleash

your creativity in this edition. This edition has

lots in store for everybody. Communicate and discover! Make sure to complete ALL the activities. If you haven't checked out our website 'curiobuddy.com' yet, then be sure to. Read stories and make your own. Share your submissions on the WhatsApp group. Made from my heart for you, the Kreative Kids and CurioBuddies.

With lots of love, Ms. Kanira

What do you call a magic dog?

A labracadabrador!

Fun with Facts

Maha Shivratri

Maha Shivratri is a significant and blessed occasion in Hindu culture.

This annual event honors Lord Shiva and his divine wedding to Goddess Parvati. Symbolizing power, affection, and unity, Lord Shiva and Goddess Shakti represent an eternal bond that takes place during the night.

Talk Time

Ask your grandparents or parents, how they used to communicate when they were kids. Did they use rotary phones, send letters/postcards or did they just talk in person?

Alexander Graham Bell Day

Alexander Graham Bell invented the telephone. We still use it today. Read more about communication in the upcoming edition of *The Quirious Atom*.

Vocabulary Building

- Prose - literary medium distinguished from poetry especially by its greater irregularity and variety of rhythm
- Fostering - to promote the growth or development of
- Trait - a particular characteristic, quality, or tendency that someone or something has
- Extremists - a person who has extreme political opinions
- Denominations - a way of classifying things — it names the type or value of something
- Resurrections - bringing back something that has not existed
- Crucifixion - a public form of execution, and the visible suffering of the victims
- Bid Adieu - Say goodbye
- FGM - Female Genital Mutilation- injury to or cutting female genital organs

Activity Area

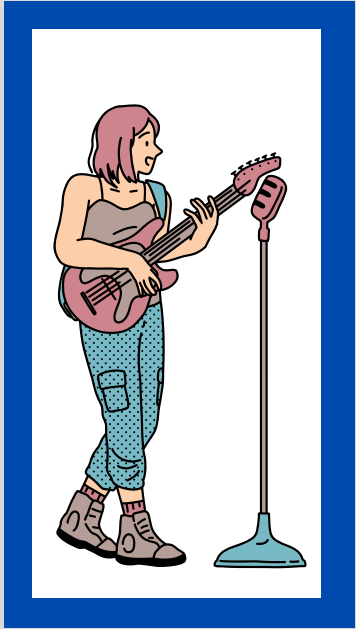

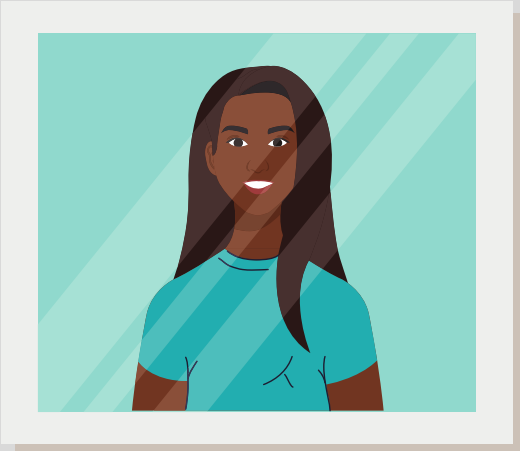

Memory

Q1. How many photos are on the wall?

Q2. What is the percentage of the blue colour in the pie chart?

Q3. How many doctors are attending the seminar?

Limerick on Girls:

In a world where bold girls take the lead,
Their strength and wisdom succeed.
With courage so bright,
They rise to the height,
Girl power, a force that all hearts need!

Poetry:

Poetry is a play of words,
All singing together.
Poems about different topics,
Be clothes, sleep or weather.
Verses and lines,
All poems so unique.
Poetry is a treasure,
So beautiful to speak.
You can make a poem,
With perfect inspiration.
Poetry oh so lovely,
It’s an amazing creation.
Express your feelings,
In a magnificent way.
Sitting in nature,
Writing in the day.

The Art of Poetry: Inspiring Minds and Hearts

World Poetry Day is celebrated on 21st March each year. This year’s theme is “Always be a poet, even in prose.” It's like saying that you should add the cool stuff from poetry, like really detailed pictures, deep feelings, and fancy words, into your regular writing. But why should we write poems? Well, poetry has the incredible ability to offer insight into the minds of others, fostering empathy and offering fresh insights into the human experience. Additionally, encouraging children to write poetry can help them express themselves and unleash their creativity through a special form of art.

William Shakespeare is also one of the well-known poets from the olden days. He even invented common words and phrases that we still use. Some of the words and phrases include-uncomfortable, fashionable, manager, eyeball, generous, lonely, majestic and cold-blooded. You can see he following link for more words and phrases that Shakespeare invented-
<https://www.ef.com/wwen/blog/language/words-phrases-shakespeare-invented/>

If you like poetry and liked this article, send us your submissions for Poem Party and check out this edition’s poem on Poetry by me. Stay creative and stay confident.

Amazing Women Who Made History

Throughout history, there have been remarkable women who have broken barriers, achieved greatness, and inspired future generations. These women come from diverse backgrounds, yet they share a common trait: their unwavering determination to make a difference. In this article, we will explore the lives of Amelia Earhart, Ada Lovelace, Indira Gandhi, Wangari Maathai, Frida Kahlo, and Mary Kom, and how they changed the world despite facing challenges and sometimes being in poverty.

1. Amelia Earhart:

Amelia Earhart was a brave pilot who loved to fly airplanes. She was the first woman to fly solo across the Atlantic Ocean. That means she flew all by herself from one side of the big, wide ocean to the other side! She showed everyone that girls can do amazing things too.

2. Ada Lovelace:

Ada Lovelace was a smart lady who worked with computers before they were even called computers. She helped create a special code that made machines do amazing things like drawing pictures. Ada Lovelace is known as the world's first computer programmer, and she showed that girls can be great with technology too.

3. Indira Gandhi:

Indira Gandhi was a strong leader who became the first woman Prime Minister of India. She helped make important decisions for her country and showed that girls can be great leaders too. She worked hard and became one of the most powerful women in the world.

4. Wangari Maathai:

Wangari Maathai loved nature and trees. She started a project called the Green Belt Movement, where she and other people planted millions of trees all over Africa. This helped make the environment cleaner and healthier. Wangari Maathai was the first African woman to win the Nobel Peace Prize, and she showed that girls can make a big difference in the world.

5. Frida Kahlo:

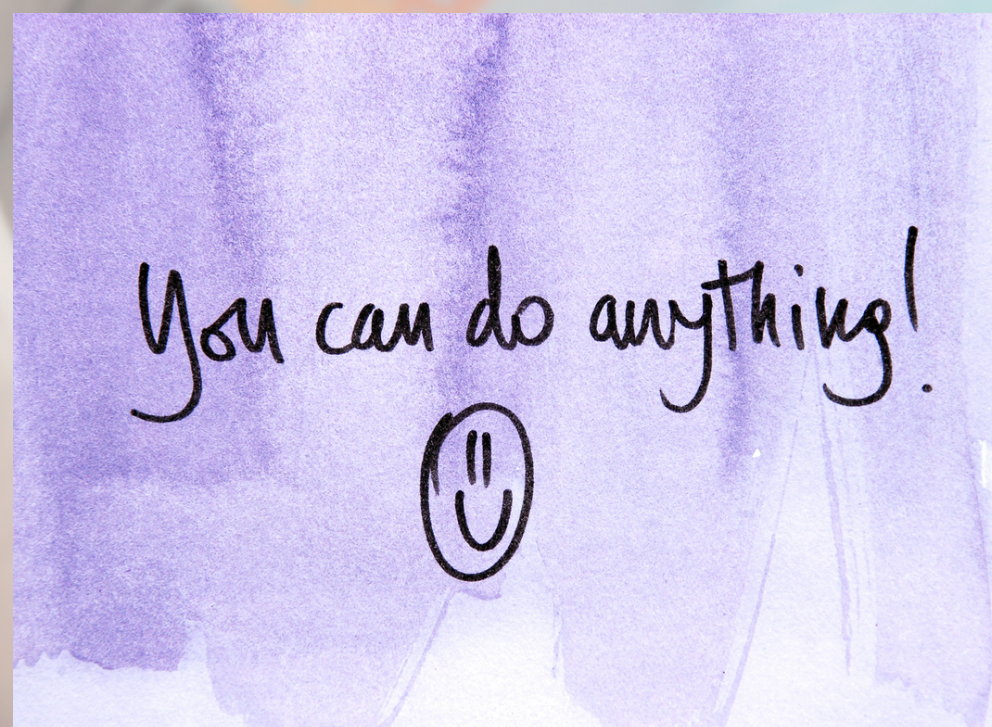

Frida Kahlo was an artist who painted beautiful and colorful pictures. Her paintings showed her feelings and experiences, and they are still admired by people all around the world today. Even though she faced many challenges in her life, she never stopped painting and showed that girls can be amazing artists too.

6. Mary Kom:

Mary Kom is a strong and talented boxer from India. She has won many championships and medals, even though boxing is usually thought of as a sport for boys. Even though she came from a poor family, Mary Kom showed that girls can be great athletes too and that they can excel in any sport they choose.

These six women came from different places and faced different challenges, but they all had one thing in common: they never gave up. They showed that even when life is tough, and you don't have much, you can still achieve great things. They made history and inspired many others to follow their dreams, no matter what.

So, kids, always remember that you can be anything you want to be, just like these amazing women. Believe in yourself, work hard, and never stop dreaming!

TOURIST TIME

Uttar Pradesh

WELCOME, FELLOW TRAVELERS! TODAY, WE'RE GOING ON A MAGICAL JOURNEY TO UTTAR PRADESH, A LAND FILLED WITH STORIES, HISTORY, AND LOTS OF FUN. SO, GRAB YOUR BACKPACKS AND GET READY TO EXPLORE WITH ME!

FIRST, LET'S VISIT LUCKNOW, THE CITY OF NAWABS. HERE, WE'LL FIND GRAND FORTS THAT ARE LIKE GIANT STORYBOOKS, WAITING FOR US TO TURN THEIR PAGES. THE MOST FAMOUS ONE IS THE BARA IMAMBARA. THIS AMAZING STRUCTURE WAS BUILT BY A NAWAB, A RULER, WHO WANTED TO HELP PEOPLE DURING A FOOD CRISIS. CAN YOU IMAGINE A BUILDING BEING BUILT TO FEED PEOPLE? ISN'T THAT WONDERFUL?

NEXT, WE'LL MOVE ON TO VARANASI, THE SPIRITUAL HEART OF INDIA. THIS CITY IS OLDER THAN HISTORY ITSELF AND IS BELIEVED TO BE WHERE LORD SHIVA, A VERY IMPORTANT GOD, LIVES. WE CAN TAKE A BOAT RIDE ON THE SACRED RIVER GANGES, WHERE THE SUNRISE PAINTS THE SKY WITH WARM COLORS, AND PEOPLE PRAY WHILE THE HOLY WATER WASHES OVER THEM. IT'S LIKE BEING IN A DREAM!

NOW, LET'S HEAD TO AGRA, THE CITY OF THE TAJ MAHAL.

THIS PLACE IS FAMOUS ALL AROUND THE WORLD BECAUSE OF THE MOST BEAUTIFUL BUILDING EVER MADE - JUST FOR LOVE! A KING BUILT THE TAJ MAHAL FOR HIS QUEEN WHEN SHE PASSED AWAY. IT'S MADE OF WHITE MARBLE AND HAS THE MOST STUNNING ARCHITECTURE THAT WILL LEAVE YOU BREATHLESS.

BUT THERE'S MORE TO AGRA THAN JUST THE TAJ MAHAL. WE CAN ALSO VISIT THE AGRA FORT, WHERE BRAVE KINGS AND QUEENS LIVED LONG AGO. IMAGINE WALKING IN THEIR FOOTSTEPS AND HEARING THEIR STORIES!

UTTAR PRADESH IS ALSO HOME TO DELICIOUS FOOD. WE CAN TASTE THE FAMOUS MUGHLAI CUISINE IN LUCKNOW, WHICH IS AS RICH AND FLAVORFUL AS THE STORIES OF THE NAWABS. DON'T FORGET TO TRY THE LOCAL SWEETS, THEY'RE SO YUMMY THAT THEY'LL MAKE YOUR TASTE BUDS DANCE!

SO, LITTLE TRAVELERS, UTTAR PRADESH IS A LAND OF MAGIC, HISTORY, AND YUMMY FOOD. IT'S A PLACE WHERE STORIES COME ALIVE AND WHERE YOU CAN FEEL THE HEARTBEAT OF INDIA. ARE YOU READY TO EXPLORE THIS WONDERFUL STATE WITH ME? LET'S PACK OUR BAGS AND SET OFF ON THIS AMAZING ADVENTURE!

HOLI

Holi, the super fun and colorful festival, is a big celebration in India and many other places too. It's like a giant playdate where everyone comes together to welcome spring, say goodbye to winter, and remember the magical love between Lord Krishna and Radha. It's also a time when we remember how the naughty Holika got tricked by her own plan and turned into ashes.

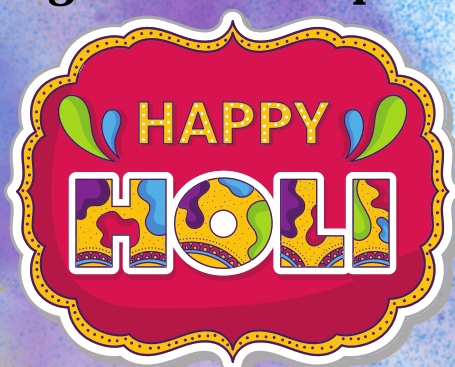

Holi is like a two-day party! The first day, called Holika Dahan or Chhoti Holi, is when we all gather around a big bonfire to sing songs, share stories, and pray for our families and friends to be happy and safe. This is like saying "bye-bye" to the bad stuff and welcoming the good.

The second day, Dhuleti or Rangwali Holi, is when the real colorful fun begins! We play with lots of bright colors, like sprinkling rainbow magic everywhere. We use soft powders, water balloons, and squirt guns to paint each other with love and happiness. It's like a giant, friendly color war!

To make sure everyone has a great time, we should:

1. Make our own colors at home using pretty flowers and spices. This way, we can make sure they're safe and gentle on our skin.
2. Always ask for permission before playing Holi with someone. We don't want to surprise anyone, especially older people or those who might not want to join in.
3. Be kind to Mother Earth! Use colors that won't hurt our environment.
4. Invite our friends, family, and neighbors to join in the fun. The more the merrier!
5. Cook yummy Holi treats like sweet gujiyas, cool thandai, and delicious puran poli to share with everyone.
6. Stay safe by avoiding harsh chemicals in our colors and by protecting our eyes and skin with goggles and a layer of oil or cream.

Holi is all about spreading love, laughter, and color. Let's celebrate it in a way that's friendly, fun, and gentle on our planet!

GIRL POWER: ROCKING IT EVERYWHERE!

Ever wondered what "Girl Power" looks like in different parts of the world? You might be surprised to find out that girls are shaking things up all over the globe!

1. **Malala Yousafzai (Pakistan)**: This brave young woman fought for the right of all girls to go to school, even when it meant being targeted by extremists. She started speaking out for rights at 11 years of age. She became the youngest Nobel Prize laureate ever and continues to inspire girls worldwide to fight for their education.
2. **Greta Thunberg (Sweden)**: At just 15 years old, Greta started a global movement to fight climate change. Now, she's a powerful voice urging world leaders to take action and protect our planet.
3. **The Robot Girls of Afghanistan**: A team of young Afghan girls dubbed the "Afghan Dreamers" built their own robot and competed against international teams, defying stereotypes and showing the world their intelligence and problem-solving skills.
4. **The Coders of Kenya**: Hailing from Samburu in Kenya, a group of girls learned how to code and built their own mobile app ENDCUT to stop FGM and early marriage in their community by providing economic empowerment opportunities for women of their community. They're not only tech-savvy, but also problem solvers and innovators!

5. **The Skateboarding Girls of India**: Girls like Shradhha Gaikwad (National Gold Medalist) are shredding stereotypes and breaking down barriers in a sport traditionally dominated by boys. They prove that girls can be daring, adventurous, and excel in any sport they choose. These are just a few examples of the countless amazing girls around the world who are making a difference. They are doctors, scientists, artists, athletes, and activists - all working to create a brighter future for themselves and their communities. They're challenging stereotypes, pursuing their dreams, and inspiring others to do the same. So, the next time you hear "Girl Power," remember - it's not just a slogan, it's a global movement of girls changing the world!

Exploring Good Friday and Easter Celebrations:

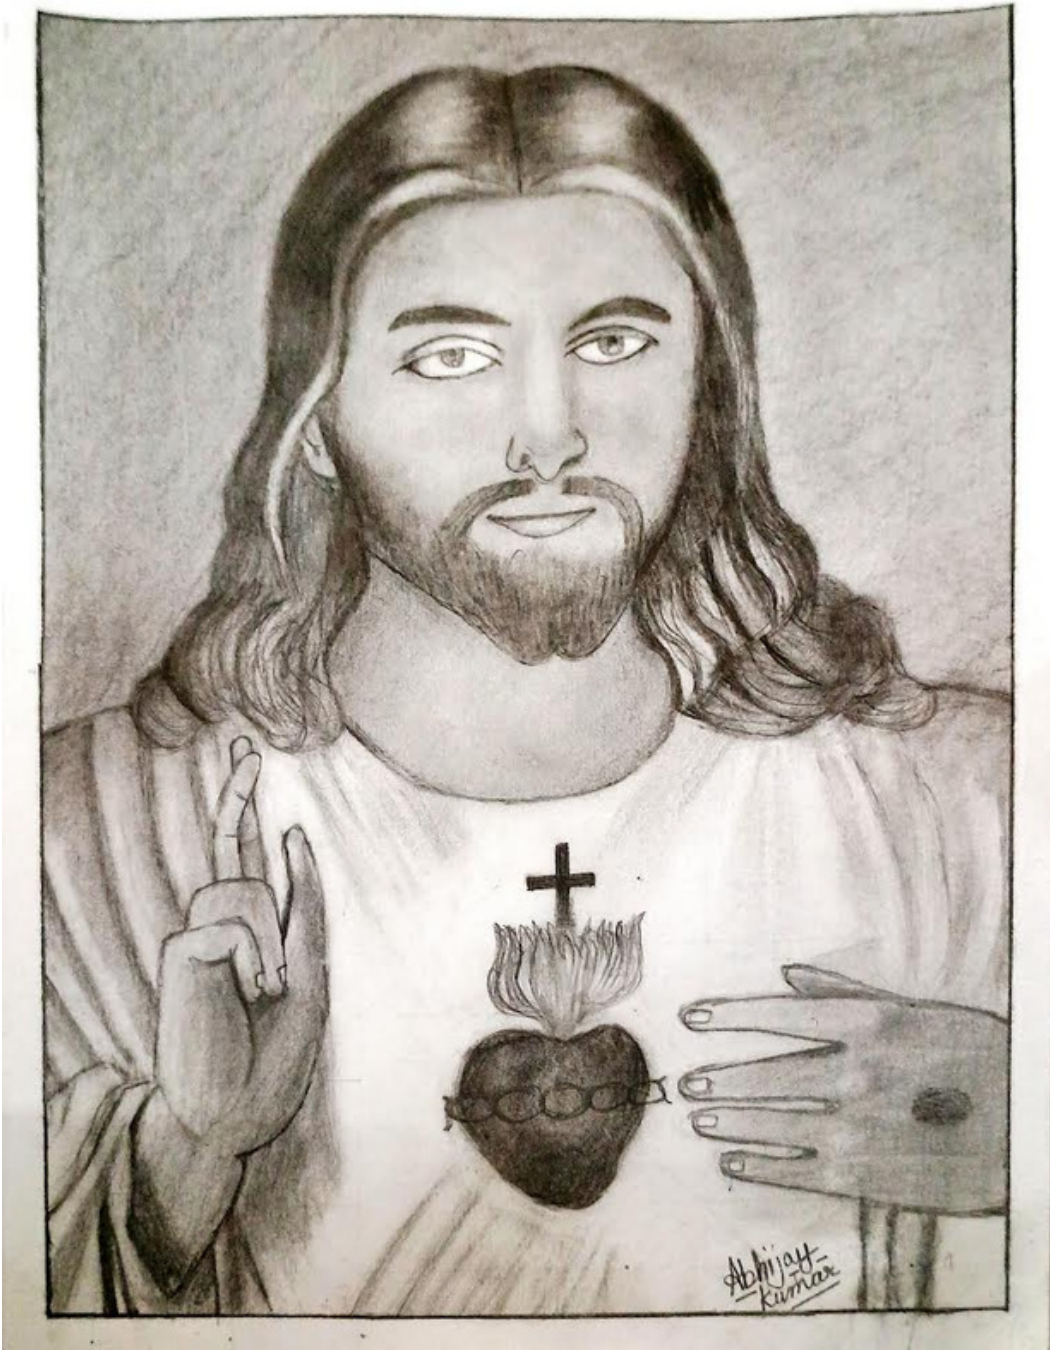

Christians observe Good Friday as a special religious day. Jesus, the founder of Christianity, is believed to be the divine Son who came to Earth. He sacrificed himself to forgive everyone's sins.

Good Friday, the Friday before Easter, marks the day Jesus was arrested by the Romans and executed by hanging on a wooden cross at Calvary. People remember this sacrifice from the Bible, the holy book used by many Christian denominations.

On Good Friday, Christians reflect on Jesus' sacrifice, and it's considered a good day because his death allowed forgiveness for everyone's sins. The goodness comes from Jesus' mercy, and some see it positively because it led to his Resurrection. It's a solemn day, and some might go to church or spend a quiet time thinking about the sacrifices made.

Easter is another important celebration in Christianity. It rejoices in Jesus coming back to life three days after his crucifixion. Christians celebrate the victory of light over darkness, life over death, and God's love for humanity on Easter. People exchange colourful eggs and share happy moments with family and friends. Easter is a time for hope and new beginnings.

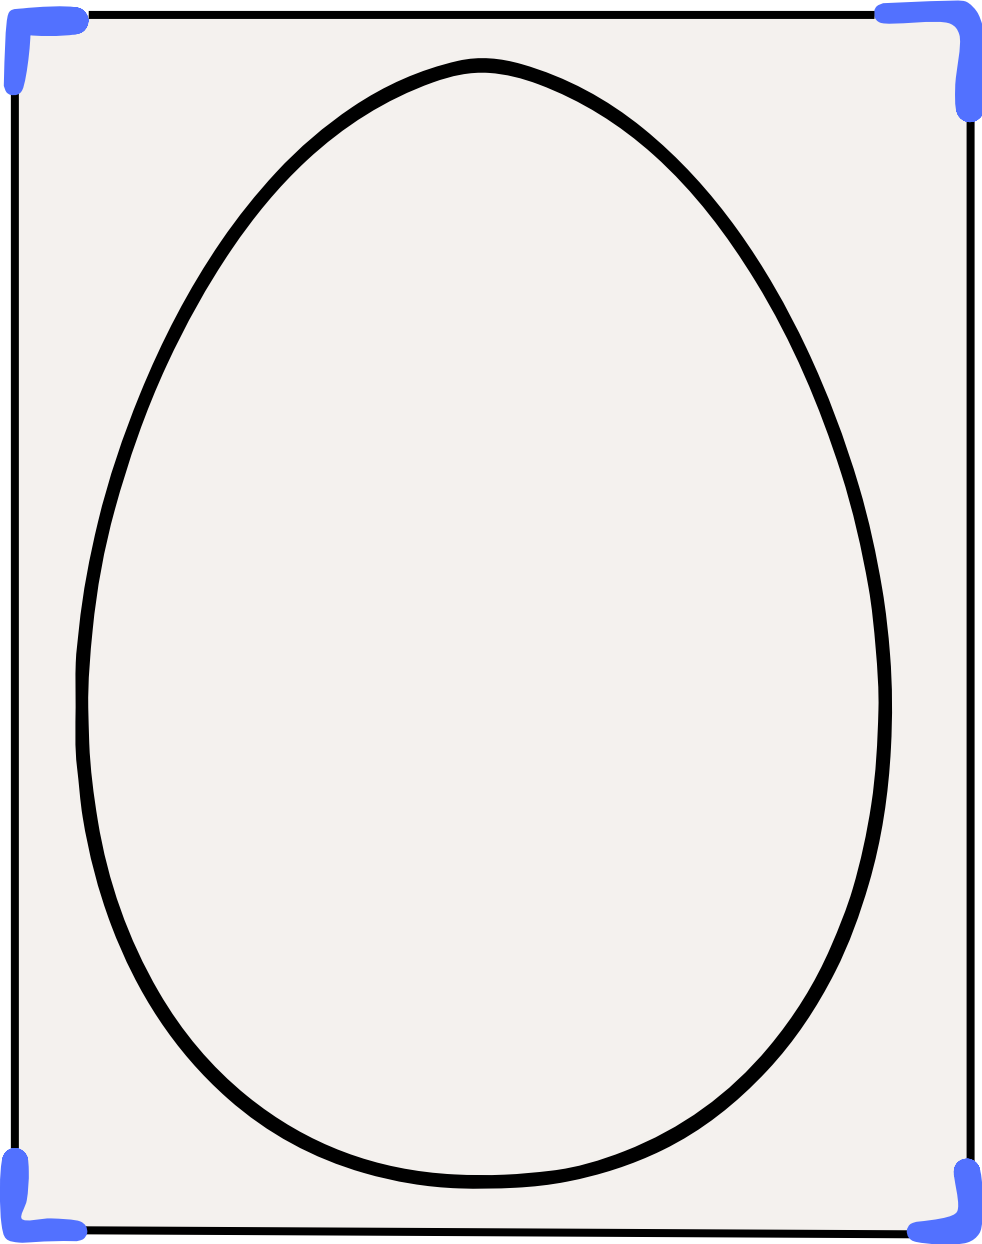

As kids learn about Jesus' life, miracles, and teachings, Easter becomes more meaningful. Reading about the last moments of Jesus' life deepens their love for him. So, Good Friday is a day of reflection, and Easter is a time of celebration and hope for Christians.

The Trip to Paris

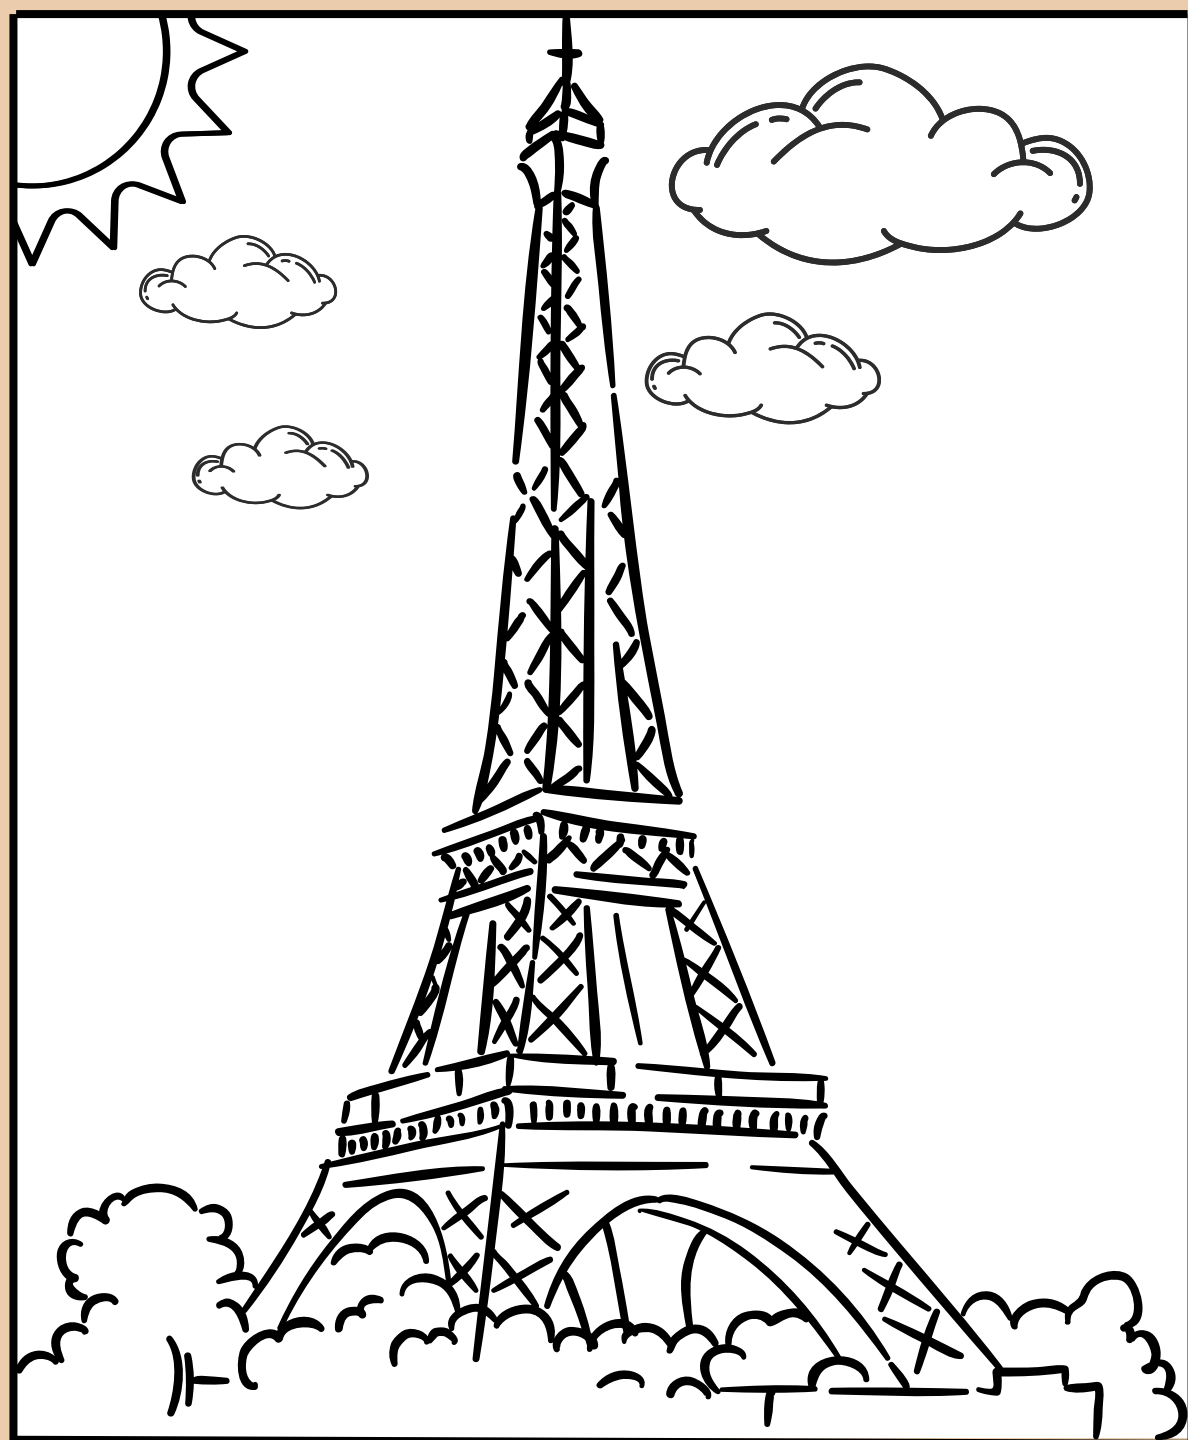

-A Cute Story

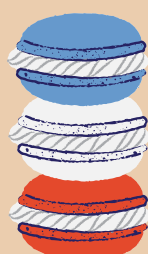

COLOUR ME!

Meenakshi and her parents had planned trip to Paris. Their flight had been booked for tomorrow morning. The next day they left for France. It was a long flight. Luckily Minakshi was sitting on the window seat and saw a beautiful view. When they were about to land, Meenakshi asked her parents- "Mumma, Papa what is that big tower. it is so beautiful." Her parents said -"Meenakshi that is the Eiffel Tower." When they landed, her parents told her all about the Eiffel Tower. Minakshi was amazed by the Eiffel Tower when they visited it at night time. It looked so beautiful and it was shining like a star in the middle of the dark sky.

Fun fact- The Eiffel Tower was created by Gustave Eiffel. The next morning, Meenakshi and her family went to see the Louvre, the most famous museum in the world. They saw many famous pieces, they even saw the Mona Lisa. There was a large crowd around that painting. When they returned to the hotel, Minakshi was tired. So they had their lunch and then a little nap. In the evening, they went to a restaurant and tried their famous baguettes, croissants and macaroons. Minakshi fell in love with the delicious food. They had a good night's sleep but it was now time to leave. Before leaving Minakshi bid adieu to the Paris and bought a souvenir and a pack of macaroons to share with her friends at school for the new session.

Eiffel Tower Day

The Eiffel Tower was presented to the public on this day in 1889.

This is the March edition of **THE KK TIMES**, handcrafted and designed by the **world's youngest chief editor (world record holder)**, a 9 year old Amitian **Miss Kanira Gupta** of class 5. She marks her debut as an editor-cum-graphic designer with this unique monthly newsletter co-created by her for 5-15 year old children globally. She aims to raise general awareness and promote the creativity of all kids through this newsletter. Now you can read all issues on digital newsstand **MAGZTER** also. The Kreative Kids (acronym KK) have good critical thinking as well as problem-solving skills. Subscribe for monthly newsletter directly into your inbox at email : **SUBSCRIPTIONS@CURIODUDDY.COM** with subject "Subscription". Join our thriving WhatsApp community for more engaging content and a science magazine **The Qurious Atom**. Both these **kids magazines** are brought out by **WWW.CURIODUDDY.COM**
